MEDICAL NEGLIGENCE OF PATIENTS AT PUBLIC HEALTH FACILITIES

Date: 05/12/2022

The Confraternity of Patients Kenya (Cofpak) is a registered non-profit organization as per the Laws of Kenya oriented to the health and social well-being of the public in Kenya. Our mandate is to advance, represent, safeguard and promote the interests of healthcare services seekers at all levels. COFPAK is a voluntary citizen's organization and is ardently independent of political or religious persuasion.

COFPAK aims to collaborate with all stakeholders in the health sector to advance access to high quality, safe, accountable, affordable and sustainable healthcare ecosystem. We exert influence on policies and programs toward the attainment of Universal Health Coverage.

Vision:

A person-centered healthcare system that promotes inclusivity, safety, and dignity at all times, everywhere.

Mission:

To advance, represent, safeguard and promote the interests of healthcare services seekers in Kenya at all levels.

Goals of the Confraternity of Patients Kenya

- Track trends in patient satisfaction and contribute to a highly reliable health system in Kenya
- Contribute to quality of care through sustained multi-sectorial partnerships
- Promote the resolution of medical negligence incidences between the patients and the healthcare service provider(s).
- Contribute to policies, guidelines, and legislative measures for delivery of healthcare in Kenya.
- Contribute to the provision of advisory and legal support services to patients and their kin
- Empower patients on their rights and roles to information at the healthcare facilities
- Representation of the interests of the public into Boards, Commissions and Committees on health subjects.
- Accelerate uptake of the promotive, preventive, curative, rehabilitative and palliative health services in Kenya.
- Contribute to the institutional and public education on emerging issues in health.

Regards.

Joab Ogallo
